# MICHELE ANGELILLO

**Michele Angelillo nasceu e viveu em Nápoles. Desde jovem manifestou interesse pela fotografia, particularmente em preto e branco. A atividade cotidiana e plurianual de Médico Michele**

**Angelillo Radiologista certamente contribuiu para refinar seu espírito de observação, dedicado também ao particular. Isto lhe serviu para imprimir nos filmes momentos, situações e aspectos peculiares e insólitos colhidos seja do cotidiano como da realidade diversa, ao longo de numerosas viagens.**

**É sem dúvida peculiar, no intento de experimentar novas técnicas fotográficas, o uso que ele faz também dos raios X, na tentativa de extrinsecar uma “interioridade” também da coisa inanimada.**
